

I am writing regarding K-LOVE radio and the possibility of FM translator services being deleted. K-LOVE is an important part of the community in the that I live in. Here in WV there are few christian radio stations and if it were replaced by a different type of programming it would be a great loss. We have numerous of AM/FM stations that "boom" secular music however only 1 or 2 stations which give the opportunity to hear christian music. I urge you to not allow LPFM stations to take priority over current FM translator service. K-LOVE is a bright guiding light presenting wholesome values and positive encouragement to many communities. Thank you.
